Unless someone has recently been in an accident or had a life threatening emergency, they probably haven't thought much about the local emergency medical system. But just imagine if the emergency medical system were not in place, and if paramedics or 911 dispatchers did not have adequate training. National Emergency Medical Services (EMS) Week, May 16 - 22, is a good time to recognize the importance of these systems and to thank the dedicated men and women in our area who make saving lives their mission.
